The original right-side sketch resolved as buildable space

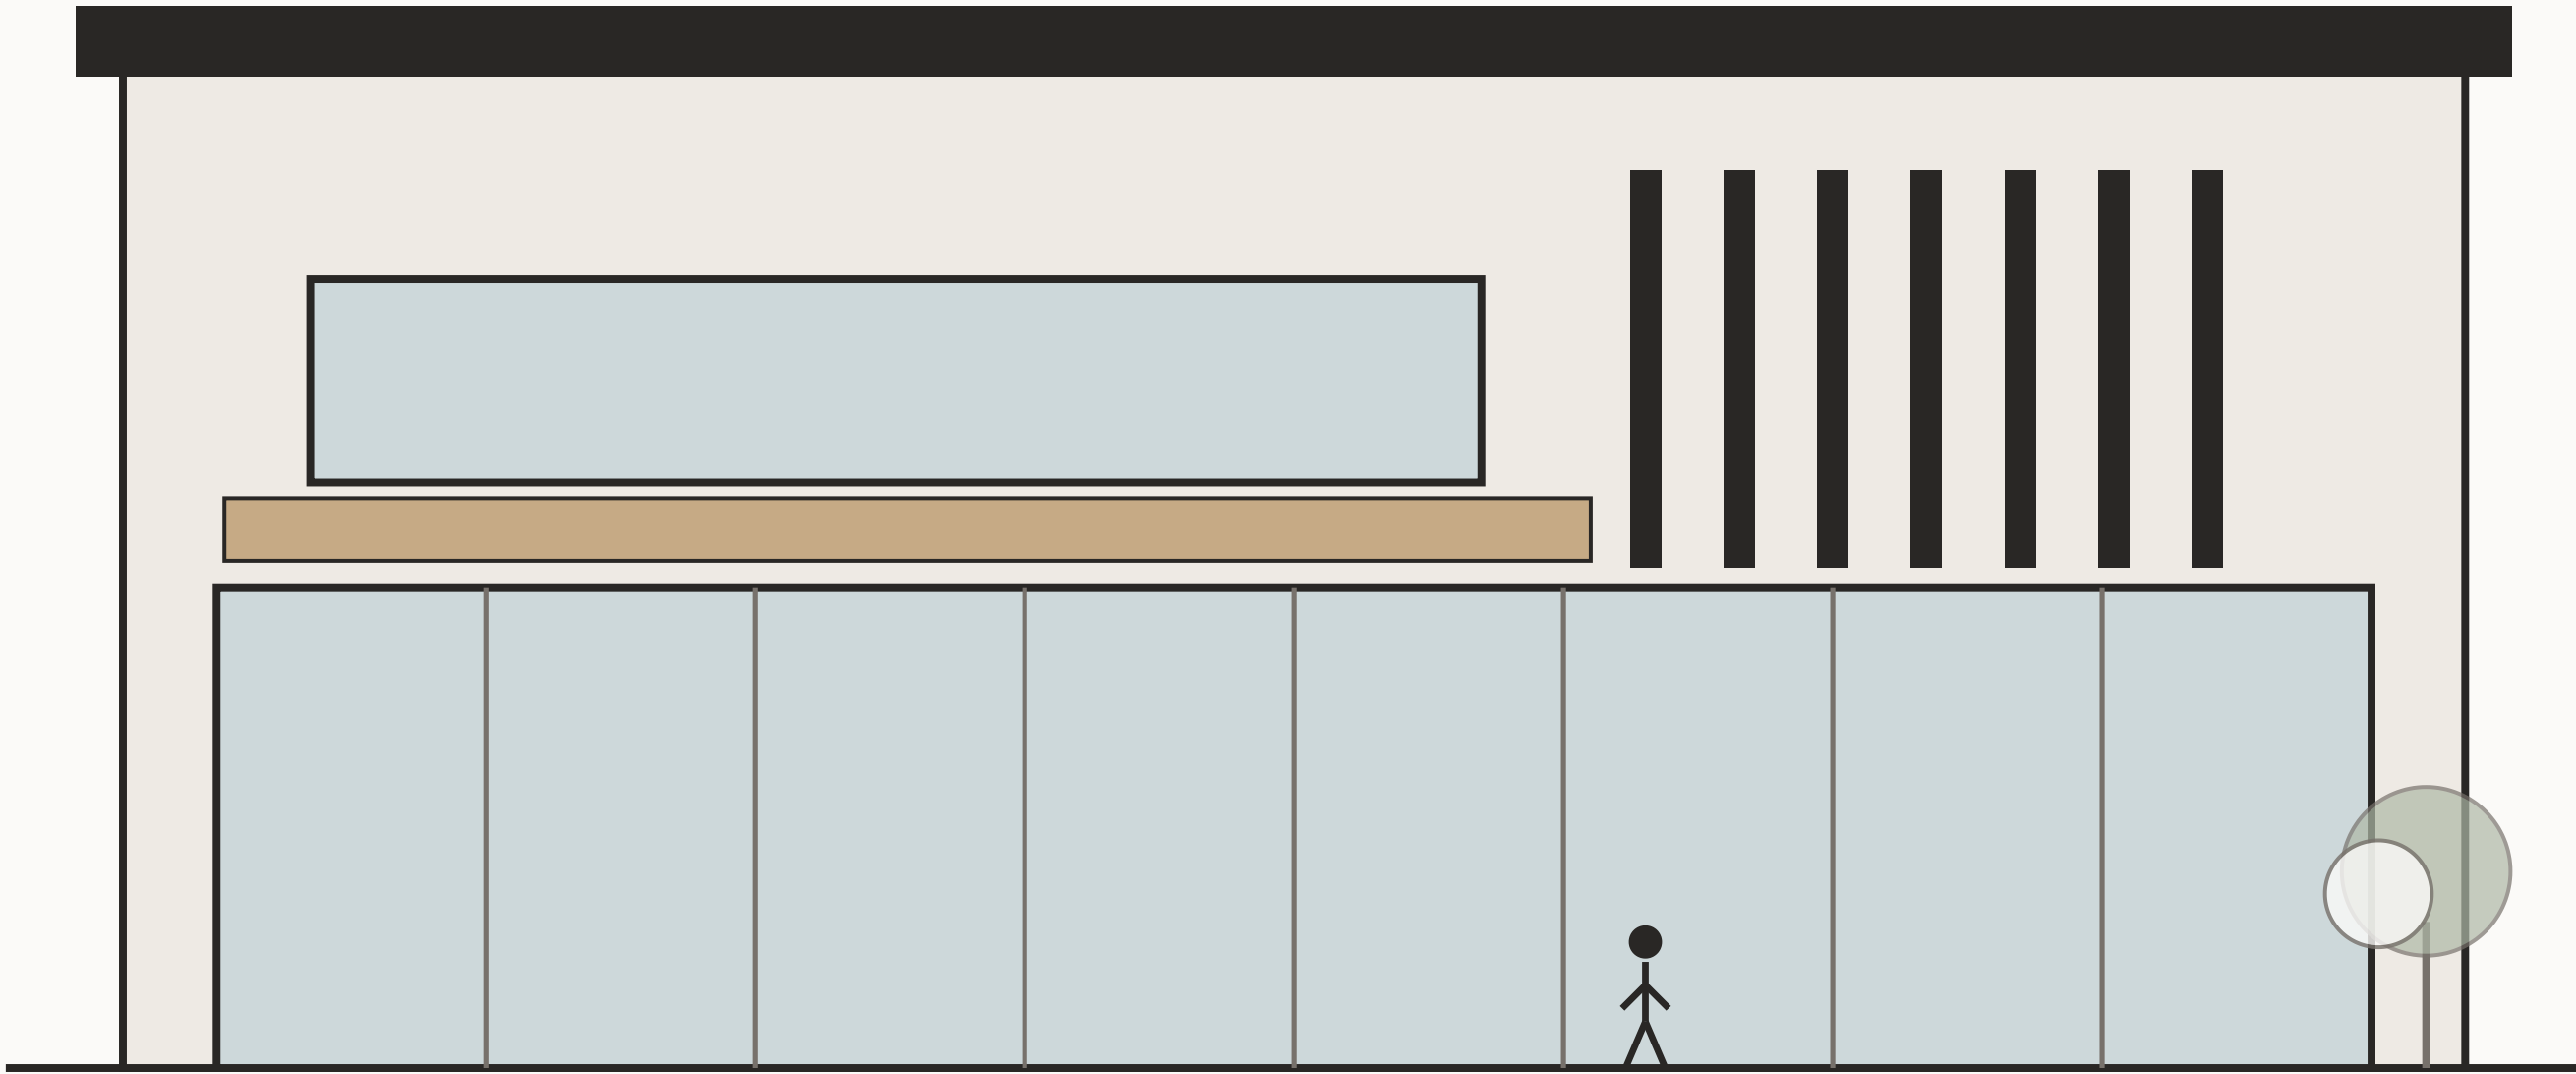

ORIGINAL SKETCH

EAST / ORIGINAL RIGHT SIDE

SOUTH ELEVATION

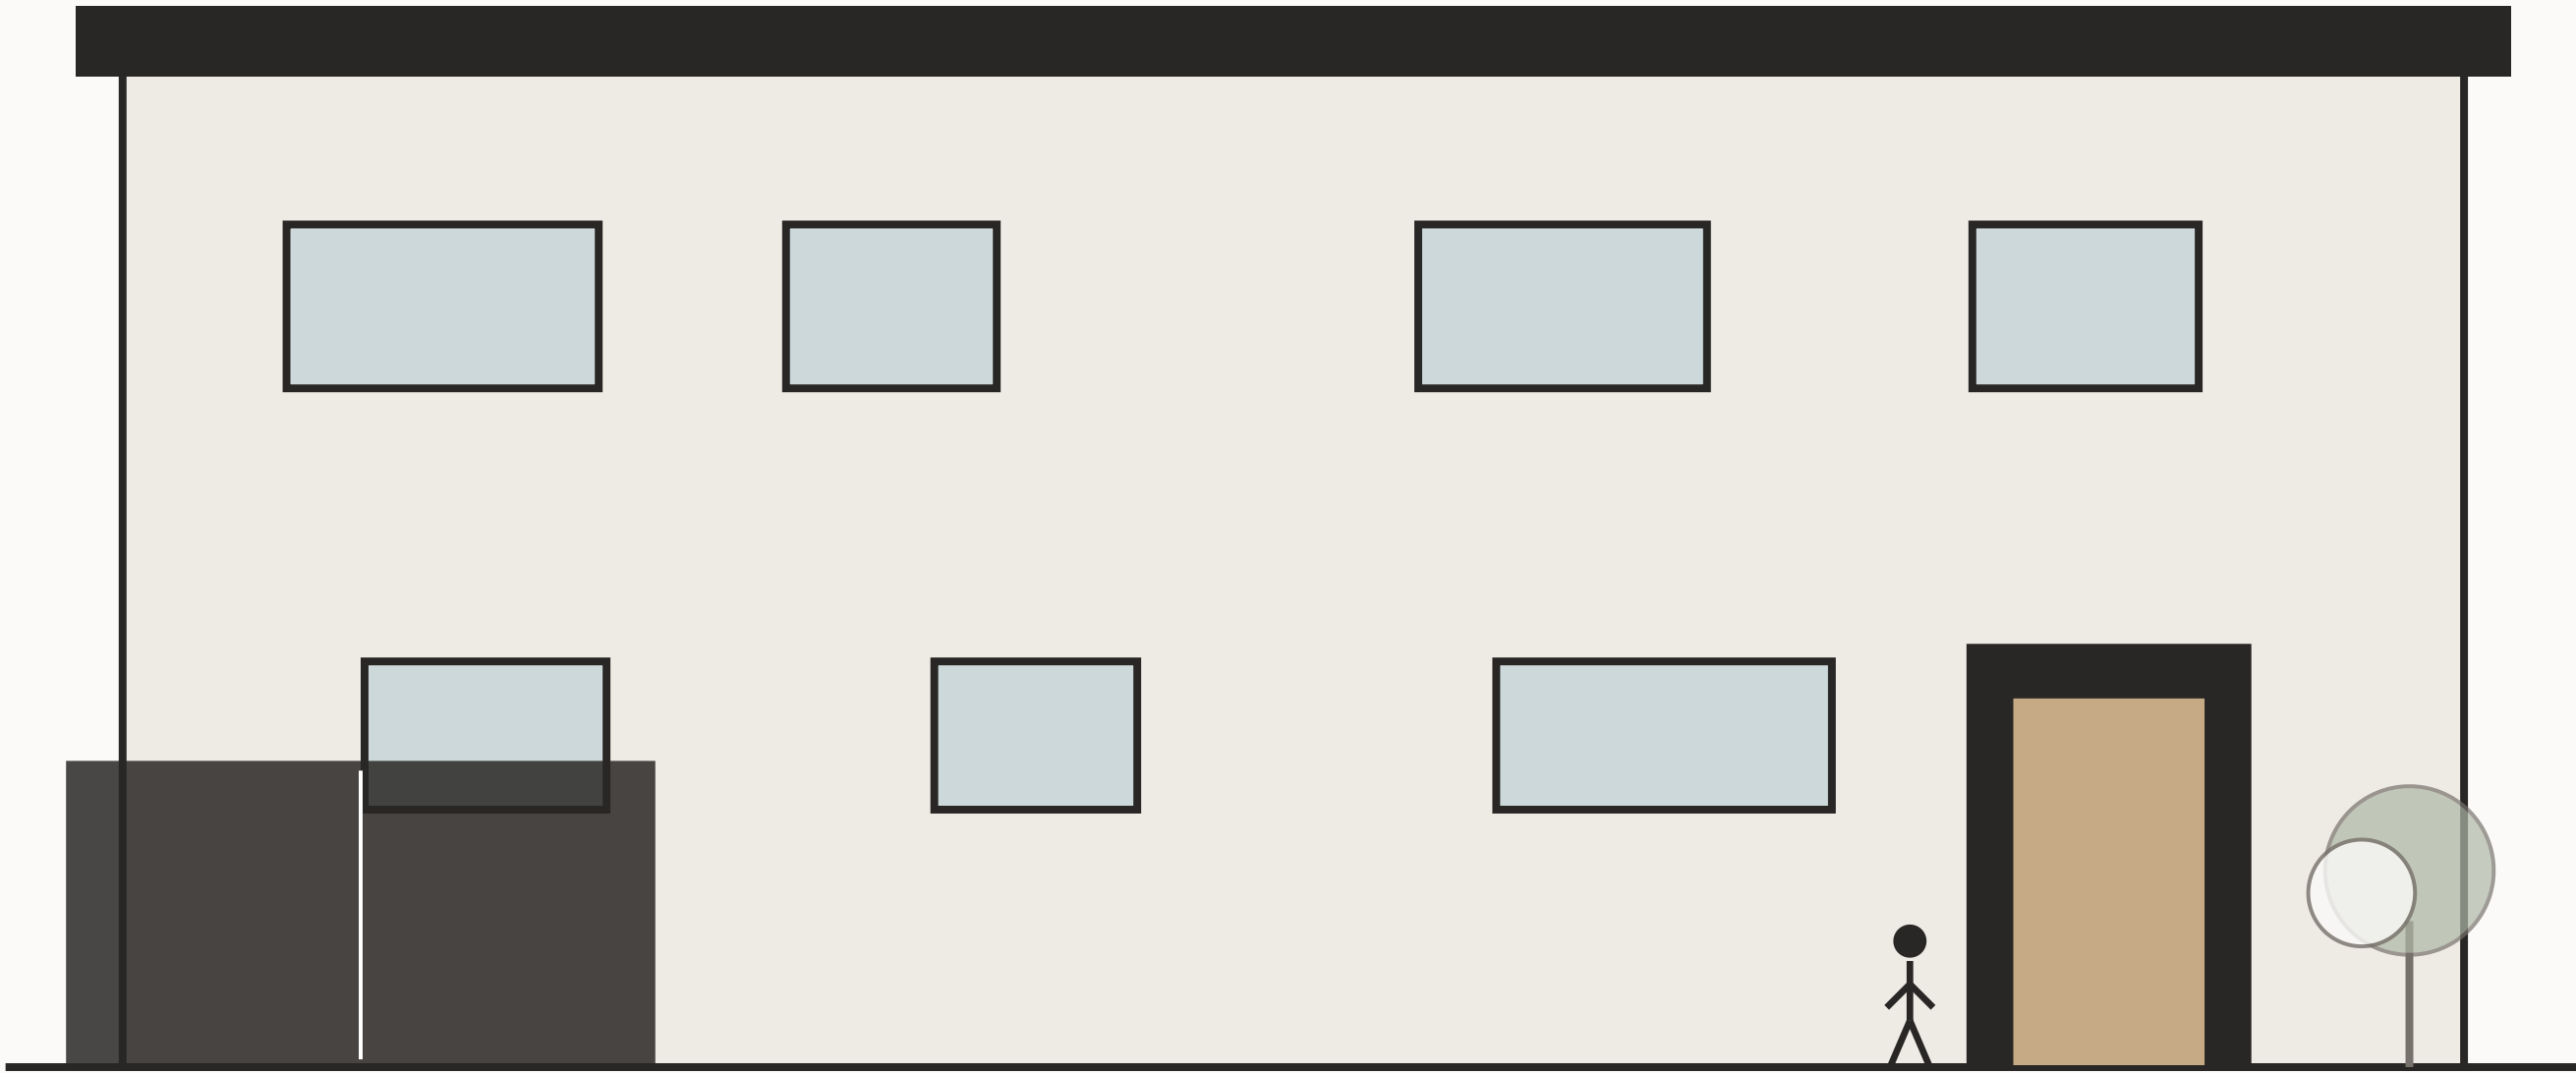

Family terrace + pool + master balcony

SOUTH / TERRACE + POOL

WEST ELEVATION

Solid service edge + controlled openings

WEST / SERVICE + PRIVACY

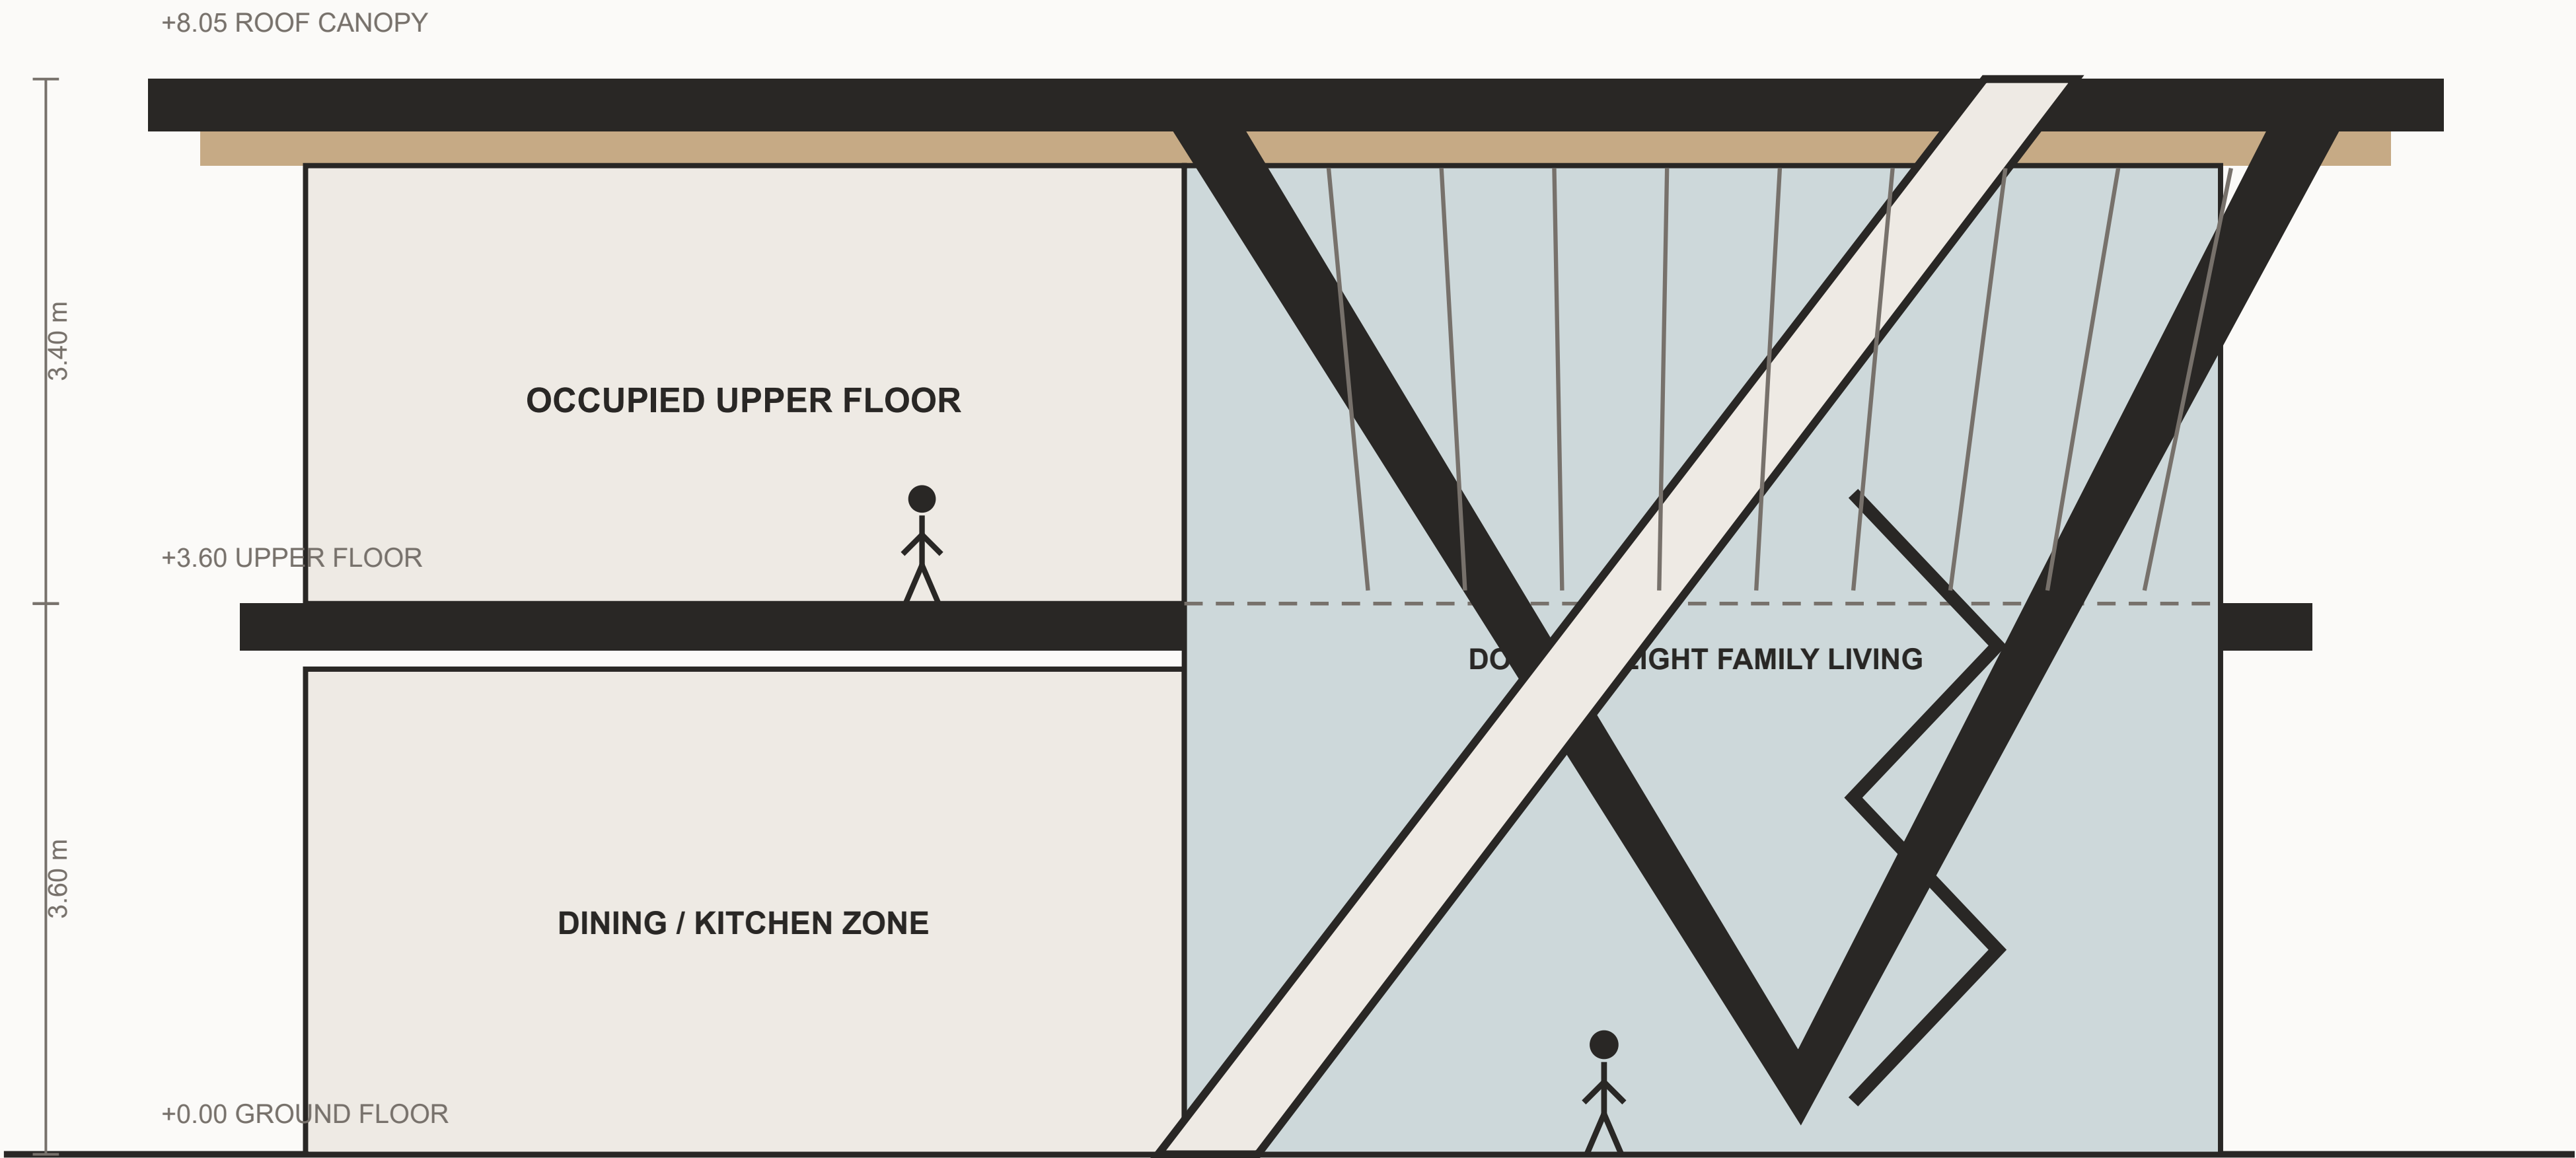

MATERIAL KEY

	Pale fair-faced concrete		Graphite steel		Solar-controlled glass		Warm timber soffit
--	--------------------------	--	----------------	--	------------------------	--	--------------------

Structure becomes shelter

SECTION A-A

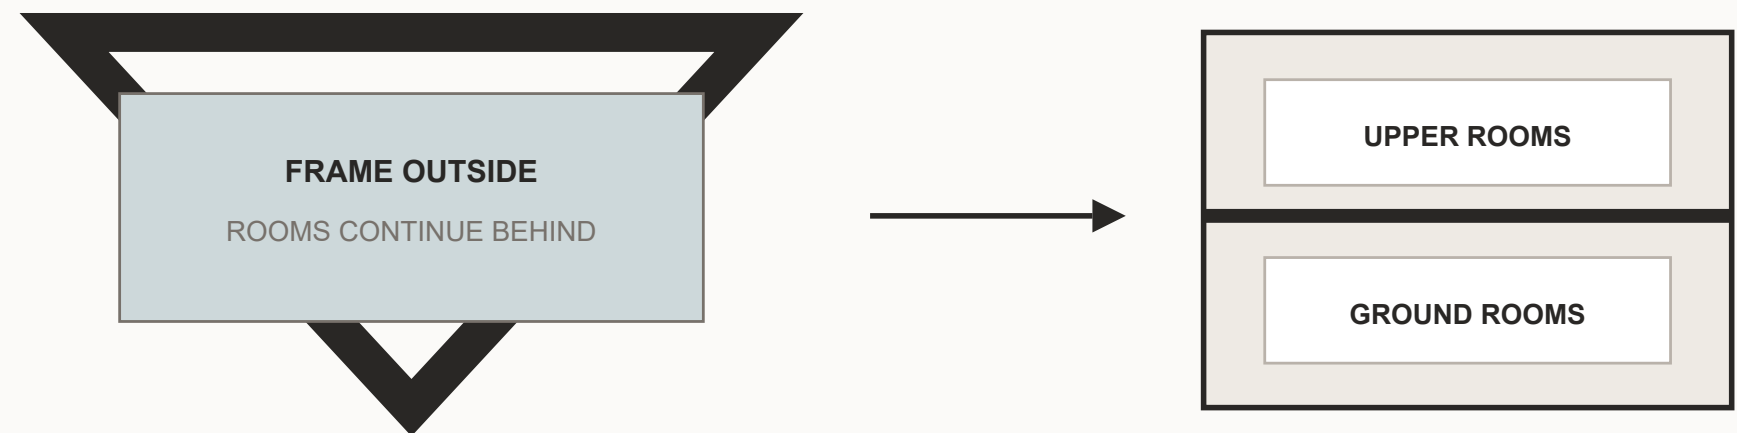

Through occupied upper floor, living void, stair and east frame

KEY IDEA

The lines support the roof; they do not replace the upper floor

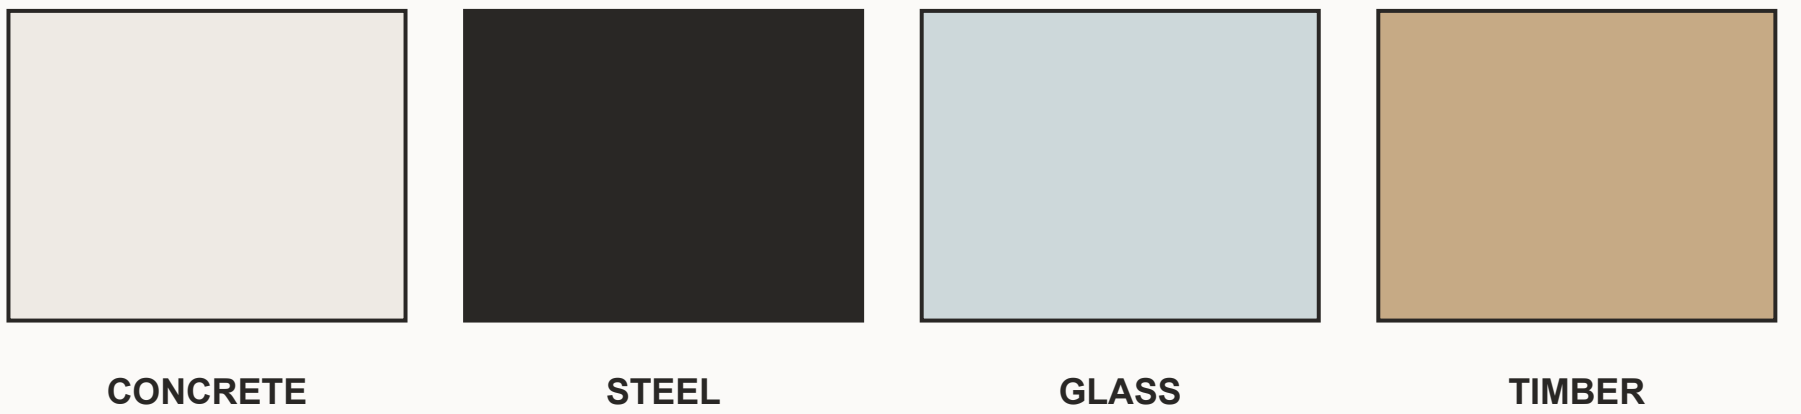

DESIGN LOGIC

HOT-SUNNY RESPONSE

- 1 Oversized roof shades the east glass
- 2 Deep south terrace protects family openings
- 3 Solid west wall limits afternoon heat

MATERIAL PALETTE

STRUCTURAL NOTE

Frame depth, hanger spacing and canopy cantilever are conceptual. Architect and structural engineer to resolve local loads, movement, waterproofing, thermal bridging and glass performance.

SECTIONAL EXPERIENCE

Dramatic structure outside. Calm, practical rooms inside.
